Governor orders restaurants, bars and gyms closed in counties with positive Covid-19 cases

Governor Doug Ducey on Thursday, March 19, ordered all restaurants, bars, theaters and gyms closed at end of business today in any county that has positive cases of Covid-19. Restaurants may still provide service by take-out, delivery and drive-through. The Town of Prescott Valley will adhere to the order.

Yavapai County Community Health Services announced on Thursday its first tested positive Yavapai County case of Covid-19 in a Sedona resident. The patient has no symptoms, the Health Services Department release stated, has not been hospitalized and is isolating at home. YCCHS stated that the patient tested due to an exposure to a suspected COVID-19 case, and is investigating to identify the source of the virus and other individuals who were potentially exposed. People close to the individual will be contacted by the YCCHS.

As of Friday morning, March 20, there are currently 63 cases of Covid-19 in Arizona, 34 in Maricopa, 10 in Pinal, 8 in Pima, 5 in Coconino, 3 in Navajo, 1 in Graham, and 1 in Yavapai. Three hundred and forty three tests have been completed statewide, with 211 ruled out, and 101 pending. In Yavapai County, 58 tests have been completed with 42 negative, and 15 pending.

Please see the Governor's Executive Order, additional information and links on the Prescott Valley website at www.pvaz.net.
