## **PRIMARY CONSIDERATIONS RELATED TO PROPOSED DEVELOPMENTS**

There are two general focuses of consideration regarding any development project and change of zoning. They pertain to the appropriateness of proposed **LAND USE** and the nature of **PHYSICAL DEVELOPMENT**. The following discussion provides a synopsis of the major sources of those concerns:

### **LAND USE:**

- 1) The Town of Prescott Valley Zoning Ordinance (established by the Town Council, 1979), implemented Town-wide zoning for control of land uses and development and density standards within the various districts. Adopted physical improvement standards are described by the Uniform Building Code.
- 2) The Town Council approved a *General Plan 2020* in 2002. The Plan is a series of goals and policies developed by the community. The purpose of the General Plan is to delineate goals for long range planning and development over the next twenty years with strategy for their accomplishment. Guidelines pertaining to land usage and physical site development described by a General Plan would be considered in the evaluation of a request.

### **PHYSICAL DEVELOPMENT:**

- 1) Development projects are reviewed by staff with concerns regarding potential impacts associated with the proposed use as addressed by the Town Zoning Ordinance and other adopted Codes, and land use guidelines of the General Plan. These guidelines address potential health, safety and welfare impacts (safe and controlled access, buffering of the use where needed, visibility of the site, outside storage, volatility of materials on-site, etc.). Depending on the manner of development, the degree of concern regarding each of these elements may vary.
- 2) Adopted Town Codes also regulate drainage and grading and building safety issues among others. Additional physical development guidelines may later be recommended by **project reviewing agencies**. It would benefit the developer to become familiar with those requirements before this request evolves into a hearing application. Information and/or copies of these codes are available from various town departments. These recommendations can sometimes delay or establish financially preclusive development requirements.

### **OTHER CONSIDERATIONS:**

As part of the application process, you will be required to submit a list of names and addresses representing the land ownership within three hundred (300) feet of the proposal area. With that in mind, you should begin communicating directly with those property owners in order to develop some familiarity with local sentiments regarding your proposal.

### **PRE-APPLICATION MEETING:**

Prior to the formal submittal of a completed application, you should schedule a meeting with the Planning Department to assess the feasibility of your proposed project.

The initial meeting can be based on a conceptual sketch plan, or a more detailed plan if available. The level of detail and completeness will determine when the application is ready for submittal. The purpose of the initial meeting is to provide staff's opinion on the appropriateness of the proposal and identify the impacts and issues that may be associated with the projects. Some of the issues to be addressed are:

- Impacts on surrounding properties
- Traffic impacts on adjacent streets and neighborhoods
- Need for future right-of-ways and off-site improvements
- Impact on water, sewer and other infrastructure
- Availability of other services
- Flood, drainage patterns and detention

After initial review, continue with completion of application as outlined in the following instructions, incorporating any material deemed necessary. **The item will not be scheduled until all necessary information has been submitted and adequately reviewed by necessary agencies and departments.**

**Note: The applicant or his representative should be present at scheduled meetings to answer questions. Any associated building permits will be issued after Public Hearing approvals and effective date of adopted Ordinances. If construction is planned, the applicants should obtain a Building Permit application and familiarize themselves with the building requirements.**

## **INSTRUCTIONS FOR ZONING MAP CHANGE**

*When submitting an application review the following prior to submittal.*

1. The legal description of the property is correct.
2. You are the legal owner or have power of attorney to represent the owner. A copy of a recorded deed must be submitted as part of the application to verify ownership. A letter of authorization from the owner is required if you are not the title holder to the property.
3. You have discussed your application with the Planning Staff (pre-application meeting) and have considered any community plans, zoning patterns and trends, etc.
4. The application is complete and accurately describes the existing and proposed future use of the property to be rezoned or modified by a conditional use permit. If the form does not provide sufficient space to properly represent what is proposed, please attach supplementary sheets.
5. You have contacted other departments and agencies, such as Public Works and the Yavapai County Health Department, to see if there are any special requirements for processing of the request.

### **FILING FEES:**

All public hearing application filing fees are NON-REFUNDABLE and must be paid at time of application. Fees are based on the complexity and type of request, acreage involved and changes in density.

### **PROCESSING:**

A request for a hearing for a Zoning Map Change or Conditional Use Permit approval shall be made by completing the application form provided by the Community Development Department. If required, supplementary information, such as a site plan, letter of intent, drainage report and other materials must be filed with your application (see checklist). After checking your application as to form, content and fees, the Department will accept the application. **All incomplete applications can not be accepted and will be returned to the applicant.**

The hearing application is forwarded for review to the various reviewing agencies prior to scheduling the item on a Planning and Zoning Commission agenda.

Staff will complete the following prior to the hearing date:

1. Post the site, post the three (3) required public locations, publish a written notice of hearing, and mail a notice to adjacent landowners.
2. Conduct a field investigation of the site (permission by the landowner must be provided by the applicant prior to site visit); and
3. Prepare a Staff Brief and exhibits for review by the Planning and Zoning Commission.

**Note:** Posting the area and mailings gives surrounding owners notice of your application, thus providing them with an opportunity to express their view before the Commission and/or Town Council either in support of or in protest to your application.

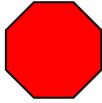

Prior to the public hearing on your application, you will receive written notice of the date, time and place of the meeting. At time of application, staff can indicate tentative dates the application will be heard before the Commission and/or Town Council. There is a timeframe of approximately seven (7) weeks from submittal date to Commission Hearing date.

**PLANNING & ZONING COMMISSION HEARINGS:**

On the scheduled hearing date, applications are called in the order shown on a printed agenda. After the staff has presented its recommendation on the application, the applicant will be given an opportunity to speak. Persons in the audience will then be given the opportunity to voice their opinion on the matter. After all comments are made the Chairperson will close the floor and the Commission will then act on the application with a recommendation to deny, approve, or hold the item for further study. A recommendation for approval or denial will be forwarded to the Town Council for final approval. The Town Council must approve the zoning request on two separate occasions, following which there is a thirty (30) day waiting period before zoning becomes effective.

**EFFECTIVE DATE OF ZONING:**

If a Zoning Map Change request is approved, the new zoning will be effective on the 31<sup>st</sup> day after the date of Town Council approval, as per State Statute ARS 11-829. (Conditional Use Permits are effective the day of approval).
