This Article is intended to regulate the activities and responsibilities of those persons who purchase, own, lease or rent alarm systems and those persons who own or operate businesses that monitor or service alarms or alarm systems. It is further intended to encourage the improvement in reliability of these systems and to insure that public safety personnel will not be unduly endangered or diverted from responding to actual criminal activity or other required duties as a result of responding to false alarms. This ordinance specifically encompasses all alarm systems monitoring a structure, including but not limited to burglar alarms and robbery and panic alarms, both audible and inaudible. By adopting the provisions as set forth in this Article, the Town of Prescott Valley, its officers, employees and agents shall not assume any greater duty or obligation to an alarm user than that which is owed to the public in general by the Town, its officers, employees and agents.

(Ord. No. 180, Enacted, 08/25/88; Ord. No. 700, Repealed 10/25/08; Ord. No. 779, Enacted, 11/21/13)

This includes Alarm Company Operators located outside the town limits of Prescott Valley which monitor alarms installed within the town limits. Neither the Town nor its police department is an Alarm Company Operator.
- D. "Alarm Administrator". Any person, persons, company or independent contractor hired by the Town to administer, control and review False Alarm reduction efforts and administer the provisions of this Article. The Alarm Administrator may also be a Police Department employee, as designated by the Chief of Police

A Burglary Alarm may also generate an audible sound on the premises.
- I. "Cancellation". The process where police response is terminated when the alarm business or other responsible person (as designated by the Alarm System User) notifies police dispatch that there is not an existing situation at the alarm site requiring police response after an alarm dispatch request. If Cancellation occurs prior to police arrival at the scene, this shall not be considered a False Alarm for the purpose of this Article and no assessment shall be charged.
- J. "Common Cause". A common technical difficulty or malfunction which causes an Alarm System to generate a series of False Alarms, all of which occur within a twenty-four (24) hour period. Any activation of an Alarm or Alarm System through mechanical or electronic failure, malfunction, improper installation, or the negligence of the Alarm System User, his/her employees or agents, that signals to summon law enforcement personnel, unless a Cancellation occurs prior to arrival of law enforcement at the alarm location. Notwithstanding the foregoing, a False Alarm shall not include the following:

 2. An activation for testing purposes when the police department has been given advance notice of such testing;
 3. An activation which can reasonably be determined to have been caused by an Act of Nature; or

- N. "Responder". A private guard, alarm company guard, private entity, or person who verifies that there is evidence of intrusion, commission of an unlawful act, or emergency on the premises that would warrant a call for police assistance or investigations for a Burglar Alarm. Responders for Alarm Company Operators requesting police response will notify the police dispatch which Alarm Company Operator requested them to respond. Responders will meet police at the premises (unless the Responder verified the Burglar Alarm by other than on-site verification).
- O. "Robbery Alarm" or "Panic Alarm".
