INDEPENDENT AUDITORS' REPORT

Board of Directors
Southside Community Facilities District No.1
Town of Prescott Valley, Arizona

We have audited the accompanying financial statements of the governmental activities and the major fund of the Southside Community Facilities District No. 1 (the "District"), a component unit of the Town of Prescott Valley, Arizona, as of and for the year ended June 30, 2010, which collectively comprise the Districts' basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Districts' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Southside Community Facilities District No. 1 are intended to present the fund balances and the changes in fund balances that are attributable to the District, a component unit of the Town of Prescott Valley, Arizona. They do not purport to, and do not represent fairly the financial position of the Town of Prescott Valley, Arizona, as of June 30, 2010, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District as of June 30, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The Southside Community Facilities District No. 1 (District) was created by the Town of Prescott Valley as a special purpose community facilities district pursuant to state law on June 29, 2006. The purpose of the District is to assist in financing necessary on and off-site infrastructure and public improvements. The developers initially build the infrastructure and are reimbursed from the District bonds. At the completion of the project the infrastructure is donated to the Town by the District.

The Town council serves as the District’s board of directors. In accordance with Governmental Accounting Standards Board (GASB) “*Statement 39 – Determining Whether Certain Organizations are Component Units,*” the District financial statements are reported in the Town’s financial statements for the year ended June 30, 2010, using the blended method.

The financial statements of the District conform to generally accepted accounting principles as applicable to governmental units. The District applies all relevant GASB pronouncements.

B. Basis of Presentation

Fund Accounting

The accounts of the District are organized and operated on the basis of funds and account groups, each of which is considered to be a separate accounting entity. The District operates only one fund, a general fund, the operations of which are accounted for by providing a separate set of self-balancing accounts that is comprised of the fund’s assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. The minimum number of funds is maintained consistent with legal and managerial requirements.

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Government-Wide and Fund Financial Statements

The government-wide financial statements (e.g. the *statement of net assets* and the *statement of changes in net assets*) report information on the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The *statement of activities* demonstrates the degree to which the direct expenses for a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, where applicable, are recognized as revenues in the year for which they are levied.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Fund types are accounted for using the “flow of current financial resources” measurement focus. This means that only current assets and liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources.” Governmental Fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

D. Budgets and Budgetary Accounting

The District is not required to adopt an annual appropriated budget but does, however, adopt a budget for management purposes. Therefore, no budgetary comparison is required.

E. Assets, Liabilities and Fund Equity

Cash and Cash Equivalents

Arizona statutes require that public deposits of more than \$100,000 meet several specific requirements. Deposits of less than \$100,000 are subject only to local ordinance or resolution. Generally, the state statutes allow investments in certain certificates of deposit, interest bearing savings accounts in qualified banks and savings and loan institutions, repurchase agreements with maximum maturity of thirty days, and pooled investment funds established by the State Treasurer. Other investments include obligations of the U.S. Treasury, U.S. Government agencies, bankers’ acceptances and mutual funds.

The District records bond trust activity and maintains a bank checking account.

Restricted Assets

District bond assets as well as certain resources set aside for bond repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

Property and Equipment and Long-Term Liabilities

The District has no capital assets. All capital assets acquired by the District are donated to the Town. The Town is responsible for maintaining the improvements.

Long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt is reported as other financing sources.

Southside Community Facilities District No. 1

Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Accumulated Compensated Absences

No liability for accumulated compensated absences existed at June 30, 2010.

II. CASH AND CASH EQUIVALENTS

A. Cash and Cash Equivalents

The District maintains a bank checking account. In addition, the bank trust fund represents proceeds from bond sales and certain resources set aside for their repayment. Under the terms of the bond indenture, the proceeds are required to be held by a trustee. Funds on deposit are invested by the trustee in highly liquid investments, as governed by state statute.

Deposits

At June 30, 2010, the carrying amount of the District's deposits was \$583,875 which is comprised of the bank checking account balance of \$3,302 and deposits with the trustee of \$580,573.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the entity's deposits may not be returned to it. As of June 30, 2010, the District's deposits were covered by federal depository insurance or by the collateral held by the District's agent or pledging financial institution's trust department or agent in the name of the District, and thus had no deposits that were exposed to custodial credit risk.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the District limits its investment portfolio to maturities of less than three years, unless matched to a specific cash flow.

Credit Risk

The District invests in obligations of the U.S. Treasury, U.S. Government agencies, Certificates of Deposit, bankers' acceptances, repurchase agreements and mutual funds consisting of the foregoing as a means of limiting its credit risk.

The District's investment in the bonds of U.S. agencies was rated AAA by Standard & Poor's and Fitch Ratings, and Aaa by Moody's Investors Service.

III. DEBT

The Southside Community Facilities District No. 1 has the following long-term obligations:

\$3,025,000 Southside Community Facilities District No. 1 Special Assessment Revenue Bonds, Series 2008 is due in annual payments of \$55,000 to \$245,000 through July 1, 2032, with interest at 6.125-7.250% per annum. (Payable from revenues generated from an assessment levied against the properties located within the boundaries of the District.)

Southside Community Facilities District No. 1

Changes in Long-Term Liabilities:

	Balance 6/30/2009	Increases	Decreases	Balance 6/30/2010	Due Within One Year
Southside (Series 2008)	\$3,025,000	\$ -	\$ 55,000	\$2,970,000	\$ 60,000

Debt Service requirements to maturity are as follows:

Fiscal Year Ending	Principal	Interest
2011	\$ 60,000	\$ 203,750
2012	65,000	199,922
2013	65,000	195,941
2014	70,000	191,806
2015	75,000	187,365
2016-20	450,000	859,250
2021-25	620,000	683,703
2026-30	875,000	417,419
2031-33	690,000	77,213
	\$ 2,970,000	\$ 3,016,369

IV. CONTINGENT LIABILITIES

At this time there are no contingent liabilities.

V. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters for which it carries commercial insurance. The District also carries commercial insurance for all other risks of loss, including workers' compensation and employee health and accident insurance.

VI. DEBT SERVICE RESERVE

One or more parcel owners have recently indicated that they would not be making one or more annual assessment payments. As a result, on July 13, 2010 a notice was filed to the bond market that an unscheduled draw had been made on the debt service reserve in the amount of \$33,515 in order to make the July 1, 2010 bond payment. This reduced the reserve to \$216,330 (the reserve requirement being \$249,845). On December 14, 2010, the District notified the bond trustee that assessment collections will again be short, in the amount of approximately \$20,000 for the January 1, 2011 bond payment. Thus another unscheduled draw on the reserve is likely. In the near term, steps will be taken that will result in an assessment auction in an attempt to avoid future unscheduled draws on the reserve.
